

Service Station Energy Resiliency Grant Application Timeline

Day 1

Service Station owner completes and submits grant application and cost estimate electronically to MEA.

Day 30

The MEA has approximately 30 days to review the application and validate the information.

Day 30-45

Service station owner will be notified of grant application approval or rejection. Grant agreement is executed. Project may begin.

Day 185

Project expected to be completed within 180-days. Invoice, supporting documentation, Project Completion Worksheet, and documentation of passed final inspections sent to MEA.

Day 215

Payment of grant made within 30-days of receipt of certificate of completion.

This schedule is for planning purposes and may be expedited or delayed depending upon timely receipt of accurate and complete documentation.
