

YOU ARE INVITED

Join Us for the Grand Opening of Clean Energy's
New Public Access Compressed Natural Gas (CNG)
Fueling Station at Baltimore/Washington
International Thurgood Marshall Airport (BWI)

The new public access on-airport CNG fueling facility — owned and operated 24/7 by Clean Energy — provides cleaner, lower-cost, domestic CNG fuel for public and private vehicles and fleets, including airport shuttle buses, shared-ride vans, taxis, trucks, and personal use vehicles.

When: 11 a.m. to noon, Wednesday, April 10, 2013

Where: Clean Energy Public Access CNG Station
131 Aaronson Drive
BWI Airport, MD 21240

Speakers: **Mark Riley**, Vice President, Eastern Region, Clean Energy
Wayne S. Pennell, A. A. E., Chief Operating Officer, BWI Airport
Fred Hoover, Maryland Energy Administration (MEA)
Chris Rice, Clean Cities Coordinator, MEA

What: Join government, environmental quality, business and community leaders for ribbon-cutting ceremonies, refreshments and viewing of on-site CNG vehicles.
