

# Utility Programs

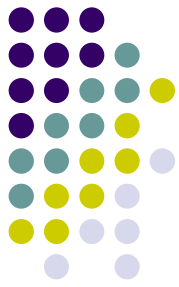

Baltimore Gas & Electric

# Managing Energy Costs in Schools

- Educational facilities represent about one-eighth of the commercial building stock in the US and Canada and spend about \$12 billion on energy each year
- Schools in the US spend more than 60 cents per square foot per year for electricity
- Energy costs make up approx. 29 percent of facilities/operations and maintenance (O&M) budgets for K-12 schools in the United States
- Tight facility budgets
- Quick fixes

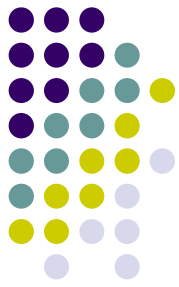

# What Can I Do?

- Conservation Programs
- Mining Your Meter
- Data Refining

# Conservation Programs

- Energy Efficient Lighting
- EIM / Load Response
- Demand-Controlled Ventilation
- HVAC Maintenance
- Performance Contracts

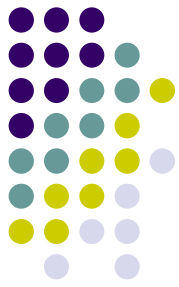

# Mining Your Meter

- Sources of Usage Data
- Prioritize Your Goals
- Benchmark to Validate Improvement

# Data Refining

- Develop a Comprehensive Energy Plan
- “Nuggets” of Actionable Information
- Evaluate Progress Frequently

## How Do I Stay In the Loop?

- Get to Know Your Utility Representative
- Get to Know Your Supplier(s)
- Continue to Attend Workshops and Seminars
