APPENDIX B: FY21 Grantees Receiving Multiple SEIF Awards

Appendix B lists individuals that have been identified by the Maryland Energy Administration (MEA) as receiving multiple awards from the Strategic Energy Investment Fund (SEIF) in FY21, or whose address has received multiple FY21 SEIF awards, as required by §9-20B-12 of the State Government article. Appendix B also lists nonprofit organizations, counties, local governments, and businesses with multiple SEIF awards in FY21.

There are several ways that nonprofit organizations, counties, local governments, and businesses can be eligible for multiple awards in a given fiscal year from the SEIF. For example:

- the Low-to-Moderate Income Energy Efficiency program is offered on a regional basis to ensure geographical diversity and an applicant can apply to provide energy efficiency services in more than one geographic area;
- the commercial Electric Vehicle Supply Equipment rebate program allows commercial entities to be eligible to receive multiple awards if multiple stations have been installed; and,
- entities can opt to participate in more than one energy program. Several counties and local governments participate in multiple MEA energy programs.

Similar to commercial entities, some of the ways that an individual can receive multiple awards from SEIF include by participating in more than one energy program (e.g., the Clean Energy Rebate Program for a renewable energy technology coupled with an incentive from the Electric Vehicle Supply Equipment program), or by installing two different Clean Energy Rebate Program technologies (e.g., solar and a geothermal heat pump).

Note: For brevity, the Clean Energy Rebate Program will be abbreviated as CERP. Similarly, the Maryland Smart Energy Communities program will be listed as MSEC, the Low-to-Moderate Income Energy Efficiency Program will be labeled as LMI Energy Efficiency, and the Electric Vehicle Supply Equipment program will be identified as EVSE.

APPENDIX C: FY21 Grantees By Program

The following pages list the more than 4,500 awards issued by the Maryland Energy Administration in FY21. Awards are organized first by program, using the program order shown in the Table of Contents, and then alphabetically within each individual program by award name. To further aid the navigation of Appendix C, each award is preceded by the letter assigned to the program in the Table of Contents.

Note: For brevity, the Combined Heat and Power Program will be labeled as CHP. Any abbreviation, acronym, and initialism defined in Appendix B (i.e., CERP, EVSE, LMI Energy Efficiency, and MSEC) will also be used in Appendix C.
