## Maryland Offshore Wind Capital Expenditure Program for Fiscal Year 2022

Notice of Availability (NOA)

November 1, 2021

**Application Deadline: February 1, 2022, at 11:59 PM Eastern**

### Program Overview

The Maryland Energy Administration (MEA) is excited to announce the Maryland Offshore Wind Capital Expenditure Program (the Program) for Fiscal Year 2022.<sup>1</sup> The Program provides **grant funding** on a **competitive basis** to support new or existing businesses entering the offshore wind supply chain in Maryland by offsetting their capital expenditure investments.

MEA will consider applications from new or existing emerging businesses (including minority owned emerging businesses), entering the offshore wind industry. MEA will also consider applications from businesses willing to relocate or expand into Maryland contingent upon receiving a grant award. Capital expenditures must be utilized to provide goods and services to the growing offshore wind industry in the United States.

Grant funds may be used to offset capital expenditures such as:

1. Business expansion including relocation costs, new construction of real property, and renovations to existing real property; and,
2. Purchase and installation of equipment at a new or existing real property(s).

The scope of proposed projects is discussed in greater detail in the section titled "Project Description" beginning on page 2.

---

<sup>1</sup> Previously offered by MEA as the "Offshore Wind Business Development Grant Program - Area of Interest 2: Capital Expenditures and Facilities Upgrades" in Fiscal Years 2018 and 2019, and the "Maryland Offshore Wind Capex Program" in Fiscal Year 2020.

## Program Budget and Grant Amounts

The Program has a total budget of \$1.6 million for Fiscal Year 2022. MEA may increase or decrease the Program budget at its sole discretion and without notice. MEA calculates grant awards as 50 percent of the total project costs. Grant awards may not exceed \$400,000. Applicants must contribute at least 50 percent of the total project costs as matching funds or in-kind services. Matching funds may include, but are not limited to, finance/loan agreement, cash on hand, a business line of credit, other grant awards (state, federal, or private).

## Eligible Applicants and Minority Participation

### Eligible Applicants:

For purposes of this program, an “Emerging Business” is defined, pursuant to Md. Code Ann., State Gov’t § 9-20C-01(e), as “a business that is at least 51 percent owned and controlled by an individual or individuals who are certified to have a personal net worth, as defined in §14-301 of the State Finance and Procurement Article, that does not exceed \$6,500,000 as adjusted each year for inflation according to the Consumer Price Index.”

Applicants that do not meet the Emerging Business definition are not eligible to receive grant funding from the Program.

### Minority Participation:

MEA strongly encourages Emerging Businesses representing and working to empower Maryland’s underserved communities (including minorities, women, and people with disabilities) and veterans of the United States Armed Forces to apply to the Program. This effort is consistent with the spirit of the Maryland Offshore Wind Energy Act of 2013 and the Clean Energy Jobs Act (of 2019).

For purposes of this program, a minority is any individual meeting the parameters found under §14-301(k)(1)(i) of the State Finance and Procurement Article, including:

1. **African American:** an individual having origins in any of the black racial groups of Africa;
2. **American Indian/Native American:** an individual having origins in any of the original peoples of North America and who is a documented member of a North American tribe, band, or otherwise has a special relationship with the United States or a state through treaty, agreement, or some other form of recognition. This includes an individual who claims to be an American Indian/Native American and who is regarded as such by the American Indian/Native American community of which the individual claims to be a part, but does not include an individual of Eskimo or Aleutian origin;

3. **Asian:** an individual having origins in the Far East, Southeast Asia, or the Indian subcontinent, and who is regarded as such by the community of which the person claims to be a part;
4. **Hispanic:** an individual of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race, and who is regarded as such by the community of which the person claims to be a part;
5. **Physically or mentally disabled:** notwithstanding the State's most recent disparity study, an individual who has an impairment that substantially limits one or more major life activities, who is regarded generally by the community as having such a disability, and whose disability has substantially limited his or her ability to engage in competitive business; or
6. **Women:** a woman, regardless of race or ethnicity.

## Project Description

Offshore wind is a new, clean-energy industry growing in Maryland, and proposed projects should assist new or existing businesses to successfully enter the offshore wind supply chain. Proposed projects must be utilized to provide goods and services to the offshore wind industry in Maryland; however, proposed projects should be designed to serve the larger US offshore wind market and related industries and sectors as well.

Grant funds may be used to offset capital expenditures such as:

1. Business expansion including relocation costs, new construction of real property, and renovations to existing real property; and,
2. Purchase and installation of new or manufacturer refurbished equipment at a new or existing real property(s).

Grant funds may **not** be used to offset capital expenditures such as:

1. Purchase of new or existing real property; however, the 50 percent of the total project costs provided by the Applicant as matching funds may be used for this purpose; and,
2. Relocation costs for the Applicants employees or personnel including, but not limited to, housing, travel, and groceries/dining.

## Application and Required Documents

1. **Application Form:** A completed Maryland Offshore Wind Capital Expenditures Program

(FY 2022) Application Form. The Program utilizes an online application portal called Jotform, which all applicants are required to use when submitting application packages. The online application portal is accessible through MEA's website.<sup>2</sup>

2. **Project Narrative:** The Project Narrative should provide a comprehensive overview of the proposed project and business opportunity(s). The Project Narrative should be no more than 15 pages long and should include the following:
  - a. An executive summary of the proposed project. Please include a discussion of how the proposed project will be successfully completed while adhering to state and local orders and guidance related to the Covid-19 Pandemic.<sup>3</sup>
  - b. Details about the project location(s) and facility(s). Please include a sitemap from Google Earth or another mapping service indicating location(s) of the proposed project.
  - c. A work plan and project timeline with key internal milestones.
  - d. A discussion of economic and development opportunities that stem from the business opportunity in the offshore wind industry as well as any other related industry. Please include estimates for new jobs created and existing jobs supported by the proposed project, and how these job estimates were generated.
  - e. A discussion of potential market(s) and estimates of potential revenues for the business.
  - f. Details about each project partner, including the nature of commitments (financial or otherwise) made by each project partner, the breakdown of responsibilities among project partners, biographies of key personnel involved in the project, and corporate qualifications.
  - g. A discussion of any potential challenges (corporate, market, legal, regulatory, political, etc.) the project might encounter.
3. **Project Budget:** This section should include details on total anticipated project costs, cost-share, and how the applicant intends to use grant funds. It should include a minimum of the following:
  - a. A total project budget with line items including, but not limited to, relocation costs, construction, renovations, equipment, installation, labor and personnel,

---

<sup>2</sup> <https://energy.maryland.gov/Pages/Info/renewable/offshorewindbusinessdevelopment.aspx>

<sup>3</sup> <https://governor.maryland.gov/covid-19-pandemic-orders-and-guidance/>

permitting and inspections, and administrative expenses.

- b. A description of how the applicant intends to use grant funds.
  - c. All other sources of leveraged funds to be used in the project, including but not limited to, finance/loan agreement, cash on hand, a business line of credit, other grant awards (state, federal, or private).
  - d. All In-kind services to be applied to the project, including but not limited to, labor costs to administer the grant.
  - e. A Proof of Funds letter provided by a financial institution or lender, if applicable.
4. **Certificate of Status:** Applicants must provide a certificate of status from the Maryland Department of Assessments and Taxation (SDAT) showing the applicant is in good standing with the State of Maryland. Certificates of status can be ordered from SDAT online.<sup>4</sup>
  5. **Business Ownership Documents:** Applicants must provide documents that demonstrate which individual(s) owns and controls at least 51 percent of the business. These documents include, but are not limited to, Articles of Incorporation, Corporate Charter, or Shareholder Reports.
  6. **Personal Net Worth (PNW) Form:** Applicants must provide a Completed PNW Statement Form(s) for each of the business owner(s) included in the “Business Owner Documents” described above in Part 5. PNW Statements must be notarized. The PNW Statement Form is available on MEA’s website in the section titled “Program Documents.”<sup>5</sup>
  7. **IRS Form W9:** Applicants must provide an US Internal Revenue Service (IRS) Form W9 for the Applicant Organization. The Applicant Organization name and address provided on the IRS Form W9 must match the Applicant Organization name and address provided in the Application Form submitted through the online application portal. An IRS Form W9 can be requested from the IRS.<sup>6</sup>
  8. **Specification Sheets:** If applicable, Applicants must provide product manuals or specification sheets for all equipment included in the proposed project.
  9. **Nationally Recognized Testing Laboratory (NRTL) Certifications:** If applicable, applicants must provide equipment certifications provided by a Nationally Recognized

<sup>5</sup> <https://energy.maryland.gov/Pages/Info/renewable/offshorewindbusinessdevelopment.aspx>

<sup>6</sup> <https://www.irs.gov/forms-pubs/about-form-w-9>

Testing Laboratory (NRTL) participating in the Occupational Safety and Health Administration's (OSHA) NRTL Program for all equipment included in the proposed project. A list of current OSHA NRTLs can be found on OSHA's website.<sup>7</sup>

10. **Letters of Support:** If applicable, applicants must provide a letter of support from each project partner which details the commitment(s) made by the project partner. Unsigned letters of support will not be accepted.
11. **Confidentiality:** Please mark or otherwise indicate any portion of your application that you believe is confidential or proprietary business information so that MEA may treat that portion accordingly. Confidential portions of the application are subject to the Maryland Public Information Act and other applicable law.<sup>8</sup>
12. **Public Record:** Subject to the requirements of Md. Gen. Provis. §4-501, MEA hereby discloses that any personal information such as that containing a name, address, number, description, or with reasonable certainty identifies an individual, is being collected solely for the purpose of determining eligibility for the Grant. An individual submitting personal information has the right to inspect, amend, or correct personal records that pertain to the individual. Failure to submit the necessary documentation and information mentioned above may result in denial of the Application. Information that identifies an individual grant recipient and similar information may be publicly available. However, MEA will not share information marked confidential nor financial information with other state agencies, unless mandated by law. Such information will not be available for general public inspection and will be entitled to the protections afforded under the Maryland Public Information Act.
13. **Application Format:** Please format the application and all supporting documents as desired. Please combine the application and supporting documents into a single Adobe PDF document.

## Evaluation

Qualified staff from MEA and other State agencies and institutions will form the evaluation panel. Applications will be evaluated on a **competitive basis**. MEA reserves the right to contact applicants with questions and requests for additional information about the project proposals during the application review period.

Applications will be evaluated according to the following criteria:

---

<sup>7</sup> <https://www.osha.gov/dts/otpca/nrtl/nrtllist.html>

<sup>8</sup> <https://www.marylandattorneygeneral.gov/Pages/OpenGov/pia.aspx>

1. The proposed business opportunity and its strategic importance in developing Maryland's offshore wind supply chain and any other related industry;
2. The likelihood of success of the applicant's proposed business opportunity;
3. Cost-effectiveness of the proposed business opportunity;
4. Percentage of any matching or shared funds available to the applicant for the proposed business opportunity;
5. The advantages that the proposed business opportunity will bring to Maryland's offshore wind supply chain;
6. Demonstration or verification that either:
  - a. The applicant's proposed product or service is of equal or better standards than what is presently used within the relevant market; or,
  - b. The applicant is providing an innovative approach, technology, or methodology that will provide the applicant and Maryland's supply chain with a competitive advantage.
7. The proposed business opportunity would provide a projected, quantifiable increase in job opportunities within the specified applicant's Maryland facility;
8. Applicants demonstrated commitment to promoting diversity, inclusion and equity in its operations, activities, supply chain and other factors. Diversity includes a broad spectrum of characteristics including, but not limited to, race, color, ethnicity, national origin, age, religion, culture, language, disability, sexual orientation, gender identity, socioeconomic status, family structure, geographic differences, diversity of thought, technical expertise, and life experiences.
9. Geographic diversity; and,
10. Completeness of application.

## Anticipated Timeline

MEA anticipates the Program application and evaluation process will adhere to the following timeline:

- **November 1, 2021:** Fiscal Year 2022 program announced
- **February 1, 2022:** The deadline to submit applications is at **11:59 pm Eastern**.

- **January 2022:** Application review period
- **February 2022:** Target date for grant award announcements
- **March 2022:** Target date for signing grant agreements (projects begin)

MEA will make every effort to adhere to the anticipated timeline for the Program’s application and evaluation process; however, delays may occur that are within or outside of MEA’s control. MEA asks that all applicants plan the start dates of their proposed projects accordingly and include a reasonable amount of flexibility. MEA thanks you in advance for your patience and understanding.

## Grant Reporting

MEA will issue a grant agreement to applicants selected to receive a grant award from this Program as determined by the evaluation panel. Once a grant agreement has been fully ratified and made effective, it is the Grantee’s responsibility to provide Quarterly Progress Reports to MEA. The required contents of the Quarterly Progress Reports will be specified in the Grant Agreement on a grant-by-grant basis.

The Quarterly Progress Reports are due according to the following schedule:

- Quarter 1 (January 1 - March 31) - Report due by April 30
- Quarter 2 (April 1 - June 30) - Report due by July 30
- Quarter 3 (July 1 - September 30) - Report due by October 30
- Quarter 4 (October 1 - December 31) - Report due by January 30

Quarterly progress reports will be submitted through the online submission portal, Jotform, and will be accessible through MEA’s website in the section titled “Reporting and Invoicing for Existing Grantees.”<sup>9</sup> Grantees that fail to submit quarterly progress reports on time will become non-compliant with the grant agreement. MEA may take corrective actions including, but not limited to, withholding reimbursement payments until delinquent reports have been submitted or cancelation of the grant agreement.

## Grant Invoicing and Reimbursement

Grant payments act as reimbursements of costs incurred by the Grantee. Grantees will submit reimbursement requests through the online submission portal, Jotform, which will be

---

<sup>9</sup> <https://energy.maryland.gov/Pages/Info/renewable/offshorewindbusinessdevelopment.aspx>

accessible through MEA’s website in the section titled “Reporting and Invoicing for Existing Grantees.”<sup>10</sup> MEA makes grant reimbursements through two payments once the grantee has completed the two milestones listed below.

- Milestone 1 - Project Installation/Construction Commences (40 percent of grant funds)
- Milestone 2 - Project Installation/Construction Completion (60 percent of grant funds)

The reimbursement request must include the required documentation included in the Jotform submission form. This may include, but is not limited to, the following documents and pieces of information:

1. Grantee invoice (on grantee letterhead) to MEA
2. Invoice overview spreadsheet
3. Invoices or receipts detailing costs incurred by Grantee
4. Proof of payment of the invoices (if not included on invoices/receipts)
5. Insurance Policy Certificate
6. Project Team Organization Chart
7. Design/Technical Drawings
8. Manufacturer Specification Sheets
9. Local Permits
10. Photos of the project site before work commences
11. Photos of the project site after work is completed
12. Any additional documents at Grantee’s discretion

Grantees may not request reimbursement for costs incurred before the effective date of the grant agreement or for ineligible costs discussed in this document and/or the grant agreement.

## **General Terms, Conditions, and Requirements**

1. The FY 2022 Maryland Offshore Wind Capital Expenditure Program is offered in accordance with the Maryland Offshore Wind Energy Act of 2013, as part of the Offshore Wind Business Development Fund (the “Fund”).
2. The Fund is used to provide grant funding for multiple offshore wind grant programs offered by MEA. MEA reserves the right, each year and at its sole discretion, to redistribute grant funding between these grant programs.
3. MEA calculates grant awards as 50 percent of total project costs. Grant awards may not

---

<sup>10</sup> id.

exceed \$400,000.

4. MEA reserves the right to obligate all, some, or none of the FY 2022 Maryland Offshore Wind Capital Expenditure Program budget, based on the number, quality, and eligibility of applications submitted.
5. MEA reserves the right to extend the application deadline of the FY 2022 Maryland Offshore Wind Capital Expenditure Program at its sole discretion, should the program experience technical difficulties or if MEA receives a large number of incomplete or uncompetitive applications.
6. Submission of an application to the FY 2022 Maryland Offshore Wind Capital Expenditure Program does not guarantee the applicant will be selected to receive a grant award.
7. It is MEA's sole discretion to determine if a proposed project is eligible to receive a grant award from the FY 2022 Maryland Offshore Wind Capital Expenditure Program.
8. All projects must be located within the State of Maryland.
9. Applicants must demonstrate they are registered and in good standing with the Maryland Department of Assessments and Taxation (SDAT) by submitting a Certificate of Status. Certificates of Status may be ordered online from SDAT.<sup>11</sup>
10. Applicants must demonstrate they satisfy the Emerging Business, including minority-owned Emerging Business, eligibility requirements specified in Section 3 "Eligible Applicants and Minority Participation."
11. To receive grant funding for a project, the successful applicant must enter into a Grant Agreement with MEA by April 1, 2022, unless an extension is given in writing (including email) by MEA.
12. A grant award will not be made for any work completed before the effective date of the Grant Agreement issued by MEA.
13. Prior to the start of construction, renovation, or installation of equipment, all projects selected for a grant award must be reviewed by the qualified Historic Preservation Specialist on MEA's staff or the Maryland Historical Trust to ensure that no historic property will be adversely impacted. MEA may require the Grantee to provide additional information concerning the proposed project site to enable the historic preservation review. Any project identified to cause adverse impacts on historic properties shall not be eligible for grant funding under this Program.

---

<sup>11</sup> <https://dat.maryland.gov>

14. All project equipment and facilities must meet the requirements of all federal, state, and local laws, regulations, ordinances, and all other legally binding requirements, if applicable.
15. If applicable, Grantees shall ensure all equipment meets certain safety criteria including:
  - a) Be certified by a Nationally Recognized Testing Laboratory (NRTL) participating in the Occupational Safety and Health Administration's (OSHA) NRTL Program;
  - b) Be installed by a licensed professional (e.g., a licensed electrician for electrical systems); and,
  - c) Be in compliance with all applicable building, electric, and fire codes.
16. Grantees shall ensure that all facilities and equipment receive all required permits, approvals, and inspections for safe and proper construction, renovation, and installation, if applicable.
17. Grant payments are contingent upon inspection of the project by MEA, at MEA's discretion, and compliance with all program requirements and terms and conditions.
18. MEA or its representative(s) may use photos and video of the facility, and data presented in the application for marketing, publicity, and advertising purposes. MEA and its representatives, subject to the requirements of the Maryland Public Information Act, and other applicable laws, will not divulge any confidential information or trade secrets.
19. MEA and its contractors make no representation or warranty and assume no liability with respect to quality, safety, performance, or other aspect of any design, system, or appliance installed pursuant to this application, and expressly disclaim any such representation, warranty, or liability.
20. Program General Terms, Conditions, and Requirements are subject to change.

## Questions

Interested applicants may submit questions, comments, concerns and/or suggestions to the following MEA staff members:

Samuel Beirne  
Energy Program Manager  
Maryland Energy Administration  
[wind.mea@maryland.gov](mailto:wind.mea@maryland.gov)  
410-537-4000

Emma Stoney  
Energy Program Manager  
Maryland Energy Administration  
[wind.mea@maryland.gov](mailto:wind.mea@maryland.gov)  
410-537-4000

Please note that Mr. Beirne and Ms. Stoney are unlikely to answer email or phone inquiries outside of normal office hours (Monday - Friday, 9:00 am - 5:00 pm) or during State holidays.<sup>12</sup>

## Submission

The Program utilizes an online application portal, Jotform, that all applicants are required to use when submitting grant applications. The online application portal is accessible through MEA's website.<sup>13</sup> MEA will not consider late applications.

**Application Deadline: February 1, 2022 at 11:59 PM Eastern**
