**\*MEA is currently coordinating with other entities/state agencies on offshore wind workforce and supply chain focused programs. MEA anticipates that these funds will be administered directly by partner agencies. Information on how to access these funds will be posted once these agency partnerships are finalized**

**\*\*Federally-funded programs are one time awards from the U.S. Department of Energy (DOE) and may be at various stages of implementation. Federally-funded programs are contingent upon the approval and allocation of funds from DOE or the applicable federal agency.**
