Liaison

http://www.eere.energy.gov/

The screenshot shows the homepage of the U.S. Department of Energy's Energy Efficiency & Renewable Energy (EERE) website. The header includes the EERE logo and a search bar. The main navigation bar contains links for ENERGY EFFICIENCY, RENEWABLE ENERGY, RESEARCH & DEPLOYMENT (circled in red), FUNDING, and ABOUT EERE. A dropdown menu for RESEARCH & DEPLOYMENT is open, listing various categories such as Biomass, Buildings, Commercialization, Federal Energy Management, Geothermal, Hydrogen & Fuel Cells, Industry, International, Solar, Vehicles & Fuels, Weatherization & Intergovernmental (circled in red), and Wind & Water Power. To the right of the dropdown, there is a brief description of EERE's mission and two columns of sub-categories: Energy Efficiency (Homes, Buildings, Vehicles, Industry, Government) and Renewable Energy (Solar, Wind, Water, Biomass, Geothermal, Hydrogen & Fuel Cells). The footer contains sections for Information for Consumers, Kids, Blogs, Connect & Share, and Resources.

[EERE » Weatherization and Intergovernmental Program](#)

The U.S. Department of Energy (DOE) Weatherization and Intergovernmental Program provides grants, technical assistance, and information tools to states, local governments, community action agencies, utilities, Indian tribes, and overseas U.S. territories for their energy programs. These programs coordinate with national goals to reduce petroleum consumption and increase the energy efficiency of the U.S. economy. They aim at market transformation to reduce market barriers to the cost effective adoption of renewable energy and energy efficiency technologies.

The Performance and Accountability for Grants in Energy (PAGE) system is a tool that is being developed by Energy Efficiency and Renewable Energy's Office of Weatherization and Intergovernmental Program. The site will provide DOE and grantees, including state and local governments, and tribal organizations, with the ability to electronically submit and manage grant performance and financial information.

Announcements

System
Maintenance

The Department of Energy will be performing IT maintenance starting at 6:00 pm Eastern - Saturday, August 21, 2010 and ending at 6:00 am Eastern - Sunday, August 22, 2010. PAGE may have intermittent availability during this time.

8/21/2010

We apologize for any inconvenience during this necessary maintenance period.

The Solution Center is the home for Energy Efficiency and Conservation Block Grant (EECBG) Program and State Energy Program (SEP) technical assistance resources. The goal of the Solution Center is to help eligible grantees and sub-grantees develop and implement successful energy efficiency and conservation projects and programs that meet the conditions and guidelines of the EECBG and SEP programs. Please spend some time exploring this page and take full advantage of the resources available.
